

DUTCH HEADS

Academy of Motion Picture Arts & Sciences
Scientific and Engineering Award
Presented March 7, 1992

By placing the counterbalancing selector ring to position "0" and turning the relevant ON/OFF knob to position OFF the **Dutch angle** can be additionally increased.

CARTONI DUTCH HEADS come equipped with a sliding base plate, a tilt locking lever, a quick-release camera plate with safety lock and one telescopic handle.

SPECIFICATIONS ARE SUBJECT TO CHANGE WITHOUT NOTICE.

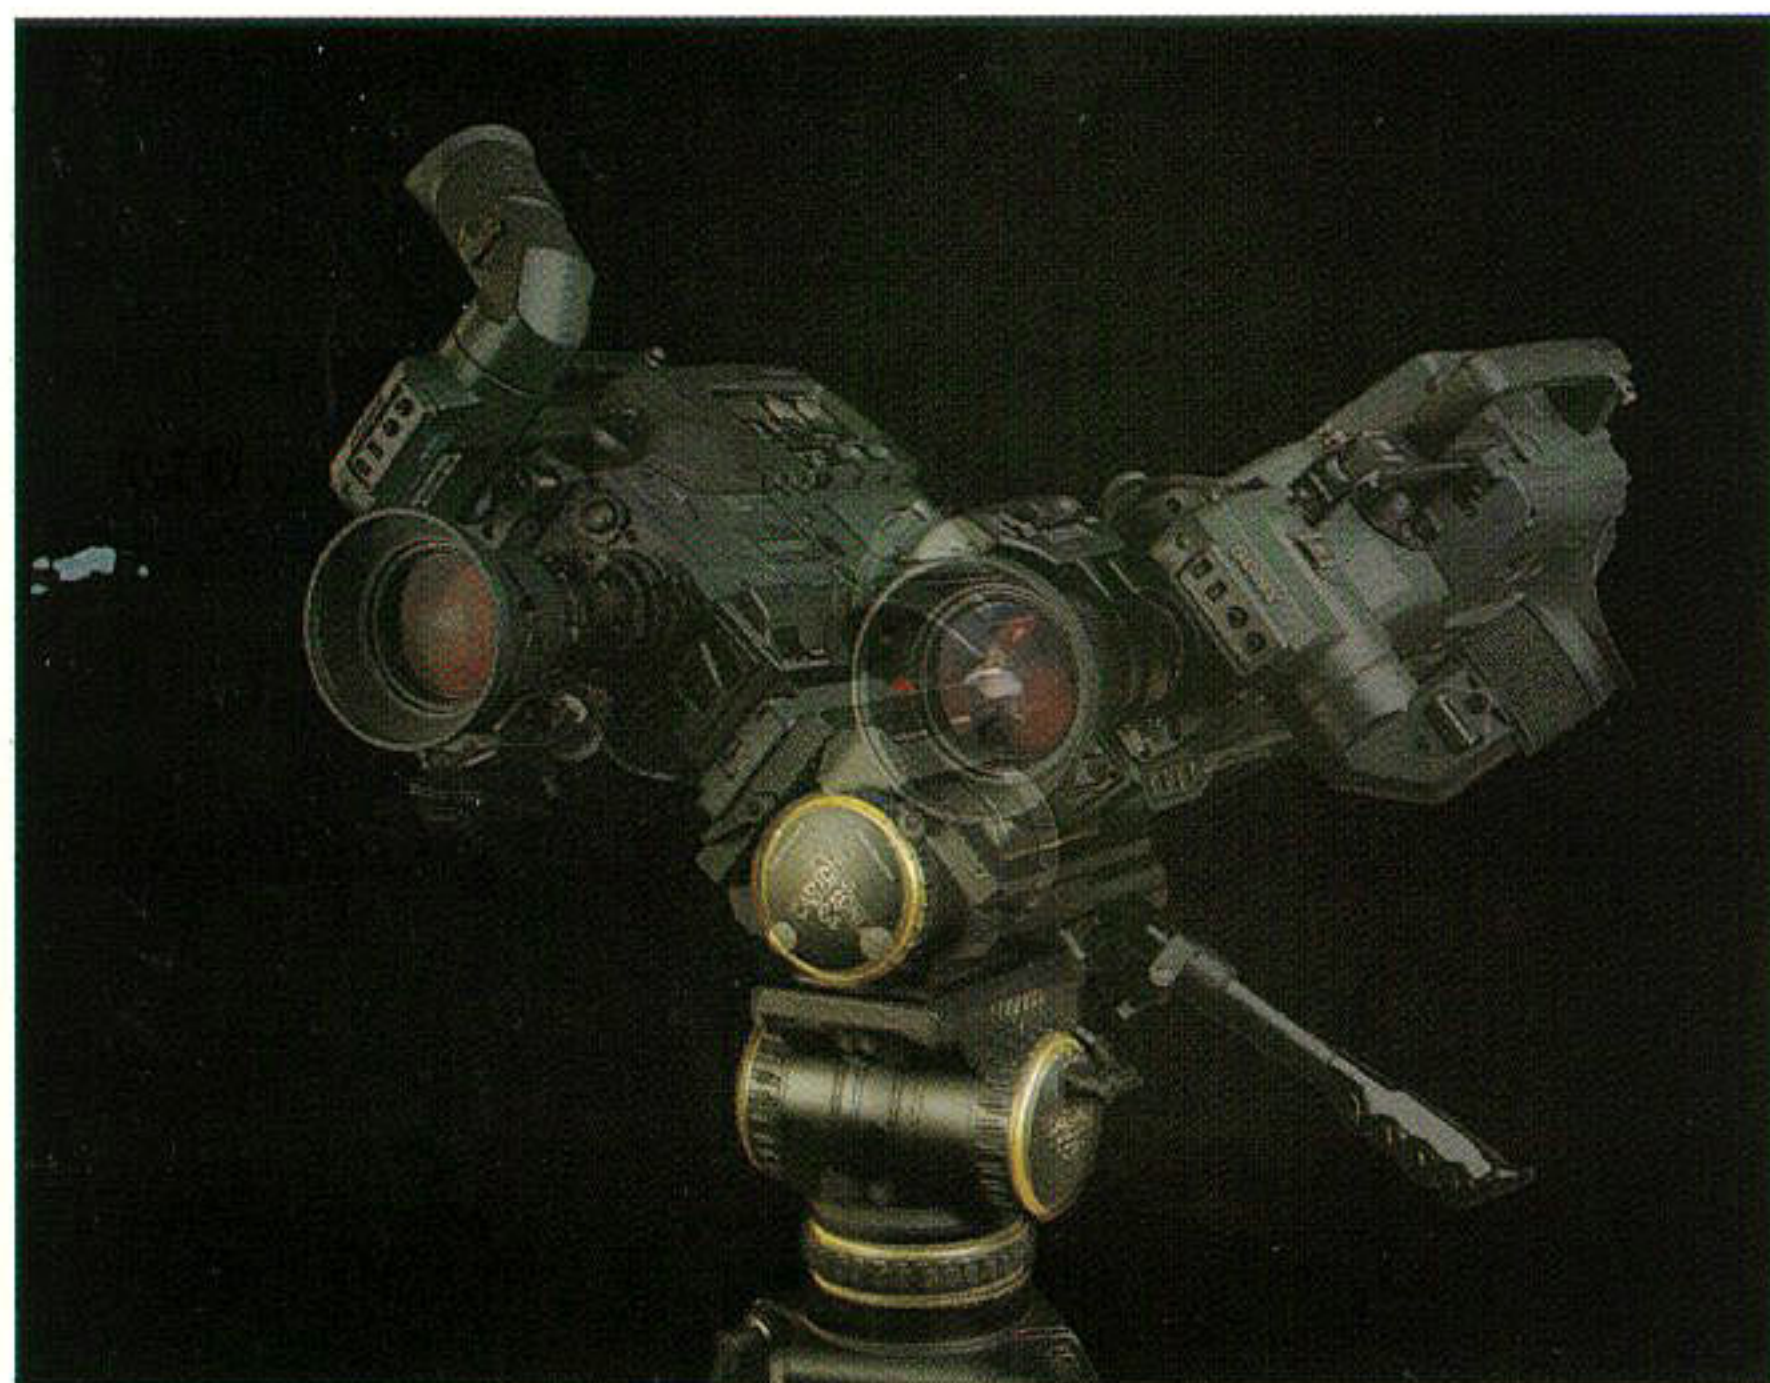

Cartoni stands behind each head with an unprecedented 5-Year Warranty against defects in materials and workmanship.

≡ CARTONI DUTCH HEADS ≡

CARTONI provides the ideal tool to produce smooth and precise lateral movements allowing the camera to be perfectly tilted sideways (**Dutch angle shots**).

Both **CARTONI DUTCH** heads, **C20 S** and **C40 S**, can be easily mounted atop all supports featuring a similar quick-release camera plate (120 mm x 80 mm x 7 mm) or anywhere else with a 3/8" screw.

The award-winning **CARTONI** fluid damping modules as well as the spring type counterbalancing system integral to both **C20 S** and **C40 S DUTCH**, provide respectively 7 steps of drag plus "0" and 7 progressive spring tension settings.
