## S-8113S 160Wh V-mount Battery

Item# S-8113S

**\$370.00****Availability:** Usually ships in 1-2 weeks

### Product Description

#### Adopt High-Load Li-ion Cells

Normal Li-ion batteries offer 100W/8A output and suitable for most ENG cameras, but the Cine Cameras such as ALEXA require around 85W high draw which is too heavy for the normal Li-ion batteries: the battery life will be reduced if long time full draw powering. Moreover, if there are more monitor, lighting work together, and total power will be above 100W, and the normal batteries can not draw completely.

Using **S-8113S** high-load battery, you can get MAX 150W/12A constant power output, which can drive more high power cameras, lightings and other equipments easily, and won't reduce battery life during long time high power output.
