FILTER AND NETWORK TECHNOLOGY

Product : 1U Rack Frame for mounting up to 8 off Ground Isolators

Model No. : LMPF01

Overview

The LMPF01 rack frame is a 1U 19-inch panel, finished in black, punched to take eight Isolators mounted from the rear by means of the mounting screws, the BNC connectors facing out of the rack.

If it is desired to have the connectors facing into the rack, the filters may be reversed, revealing the filter modules which will protrude 15mm from the surface of the panel
