

FILTER AND NETWORK TECHNOLOGY

Product : HD SDI Galvanic Video Ground Path Isolator, In Line / Tubular Model

Model No. : LHDGI 01

Overview

The LHDGI 01 is a compact galvanic signal and ground path isolator for use with HD, SD & ASI SDI video signals. They are built in cylindrical "barrel" style isolating enclosures and fitted with a BNC connector at each end. They are designed to isolate both the signal and ground paths.

Also available in panel mount version with flanges.

Fully 3G HD compatible versions are also available.

Features

Bandwith: 0.5MHz to 1.5GHz

DC Breakdown voltage: 100 volts minimum

Input and output impedance: 75 ohms

Return loss: >20dB

Dimensions: 30 x 20 (l x diameter) mm

Weight: 36g
