

FLUID HEADS 100 MM

FOCUS 22 ✓

DESCRIPTION

The new FOCUS 22 is specifically designed to support the wide variety of new ENG cameras, so compact yet so fully accessorized, featuring the patented CARTONI “wing” continuously adjustable counterbalance.

With its broad range of payloads – 3 kg (6.5 lbs) to 22 kg (48.5 lbs) - The 22 aims to become the ideal partner for all news gathering and outdoor shooting jobs.

Rugged but easy to operate the new Fluid Head has all the ergonomic settings at the right place. Fluid drag in both pan and tilt feature the distinctive renowned CARTONI patented infinitely adjustable labyrinth system.

Positive locks, wide range sliding platform incorporating the European style quick release plate, a switchable illuminated spirit level completes the operating specs.

FOCUS 22, weighs only 3.9 kg (8.6 lbs) thanks to the extensive use of extremely lightweight magnesium alloys.

The 22 interfaces with all 100 mm bowl base tripods.

COMMERCIAL CODE: HF2200
