

FLUID HEADS FLAT BASE

MASTER 65 ✓

DESCRIPTION

Designed to support camera weights from 20 Kg (44 lbs) to 65 Kg (143 lbs), the new MASTER 65 is ideal for outdoor Broadcast with bulky boxed lenses.

Depending on CoG position, the maximum payload is:

- At 200 mm: 65 kg
- At 175 mm: 70 kg
- At 150 mm: 80 kg

It combines a wide range of counterbalance capabilities, performing perfect balance at any tilt angle with a new CARTONI Fluid drag system based on silicon film. The new drag ensures almost freewheeling at its minimum up to consistent drag for smooth and slow movements with long focal lengths.

This rugged Head comes equipped with the standard Dovetail platform on a large sliding platform. The micrometric movements of the slide are operated by a handy crank placed under the slide.

COMMERCIAL CODE: HM6500

TECHNICAL DATA

Minimum Payload Capacity	20 kg - 44 lbs
Maximum Payload Capacity	80 kg - 176 lbs
Weight	16.0 kg - 35.3 lbs
Bowl Diameter	Flat base
Fluid Drag	Continuous
Counterbalance	Continuous
Pan Range	360°
Tilt Range	+/-65°
Temperature Range	-40°/+60°
Payload Capacity (150 mm)	80 kg
Payload Capacity (200 mm)	65 kg
