PB-M98S | 98Wh Pocket V-mount Battery Pack

- > Tiny V-mount battery, Pocket fit
- > 98Wh/6.8Ah fly-friendly capacity
- > 150W/12A constant high load
- > 1x D-tap output & charging input
- > 1x USB 5V/2A output
- > 5-step LED power indicator
- > Power info for both SONY & RED
- > Wire-Free internal technic
- > Multiple circuit protections

Tiny V-mount battery

Pocket fit size

The brick size V-mount batteries are always too big and heavy for field shootings, especially the handheld stabilizers, focus puller monitor, portable LED panel, or small cameras. PB-M98S Pocket V-mount battery is designed for the above applications!

It's only a DV battery size, with high capacity cells and still reaches 98Wh, and without any compromise on the DC sockets!

98Wh Fly Friendly

150W/12A constant high load

PB-M98S consists of 8pcs of high class 18650 battery cells, nominal voltage is 14.4V and reaches 98Wh / 6.8Ah high capacity. You can take this battery in carry-on luggage to board airplane.

The Constant load is as high as 150W, 12A, applicable for high power devices.

Built-in D-tap and USB

The pocket size PB-M98S still has D-tap and USB sockets built-in. The D-tap socket has 100W/8A load and support charging input by SWIT PC-U130B2 dual D-tap charger.

The USB socket outputs 5V/2A for smart phone fast charging.

5-LED Power Indicator

Low battery warning

PB-M98S has 5-LEDs to indicator remaining power percentage. When remaining power is less than 10%, the last LED will flash automatically to remind changing battery.

3A Fast Charging

PB-M98S can be charged by all standard V-mount chargers and D-tap chargers. Max charging current is 3A.

The following chargers are recommended:

1. S-3822S, Portable 2-ch Simultaneous Charger Charge 2x PB-M98S: Approx. 3 hours
 2. PC-U130B2, Ultra-Portable Dual D-tap head charger Charge 1x PB-M98S: Approx. 3 hours
- Charge 2x PB-M98S: Approx. 5 hours and 15 minutes

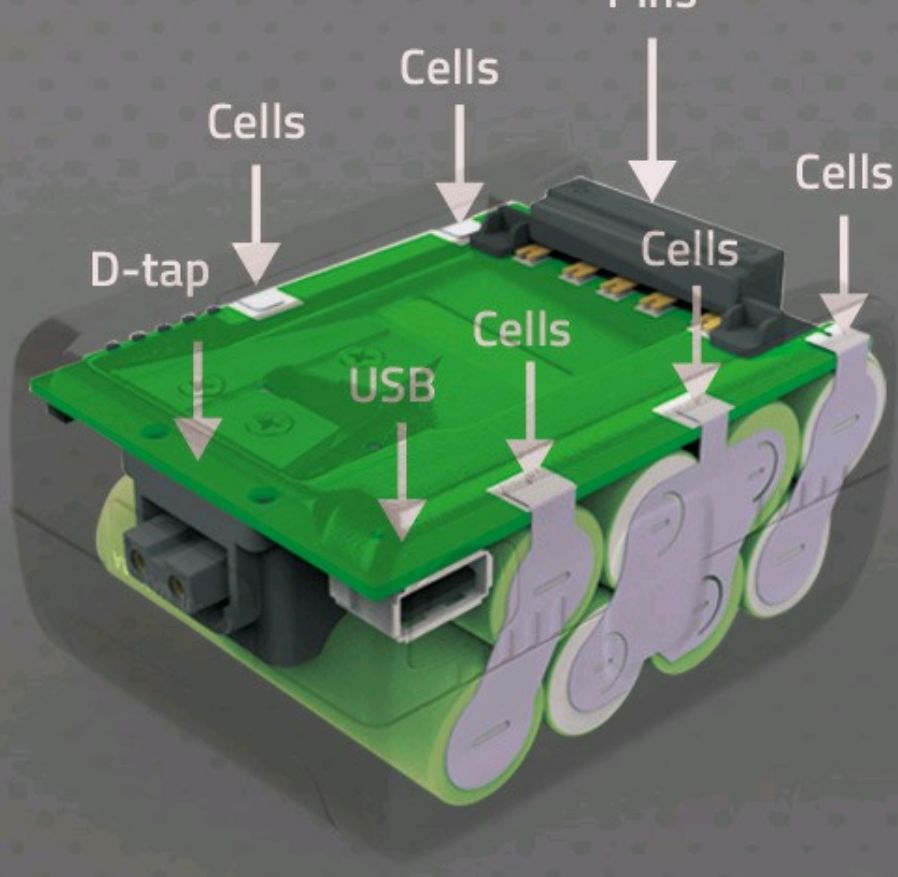

Hot-Swap Adaptor

You can use 2x PB-M98S hot-swappable on cam eras, by the Hot-swap Adaptor KA-M20S, to get a long time, uninterrupted power, and equivalent to a standard size V-mount battery.

Wire-Free Internal Tech

PB-M98S has innovative "Wire-Free" internal technic. All the cells, D-tap, USB, power indicator devices are directly soldered onto PCB, no connecting wires, to reduce internal resistance effectively, and make the circuit stable, safe, and reliable.

POCKET V-MOUNT

PB-M98S 98Wh

- ◆ Tiny V-mount battery, Pocket fit size
- ◆ 98Wh/6.8Ah fly-friendly capacity
- ◆ 150W/12A constant high load
- ◆ 1x D-tap 100W/8A output
- ◆ 1x USB 5V/2A output
- ◆ Support charging via D-tap
- ◆ Power info for both SONY & RED
- ◆ Wire-Free internal technic

Tiny V-mount battery
DV battery size, pocket fit
Portable for field productions

1x D-tap output, support charging input;
SWIT Ultra portable Dual D-tap charger
PC-U130B2 is recommended;
1x USB 5V/2A for cellphone charging

Wire-free internal technic
Cells, D-tap, USB devices are directly soldered
to PCB, no connecting wires, to reduce
internal resistance and more reliable.
