Gold Mount Battery Application

S-7000A is the standard Gold mount (Antonbauer) battery plate for customers to adapt Gold mount power solutions. The structure and power pins ensure a stable and reliable connection.

D-tap Output Socket

The S-7000A battery plate is equipped with a D-tap DC output socket, for simultaneous DC power output with the Gold mount pins.

Open-end Wires

S-7000A provides the open-end wires and rear metal plate for customer connection and installation.
