Studio Camera Tripod

TOWER100 is a studio application light weight camera tripod with smooth fluid head of 10kg load. The thicker aluminium tubes make stronger and stable legs like a tower, and still in light weight.

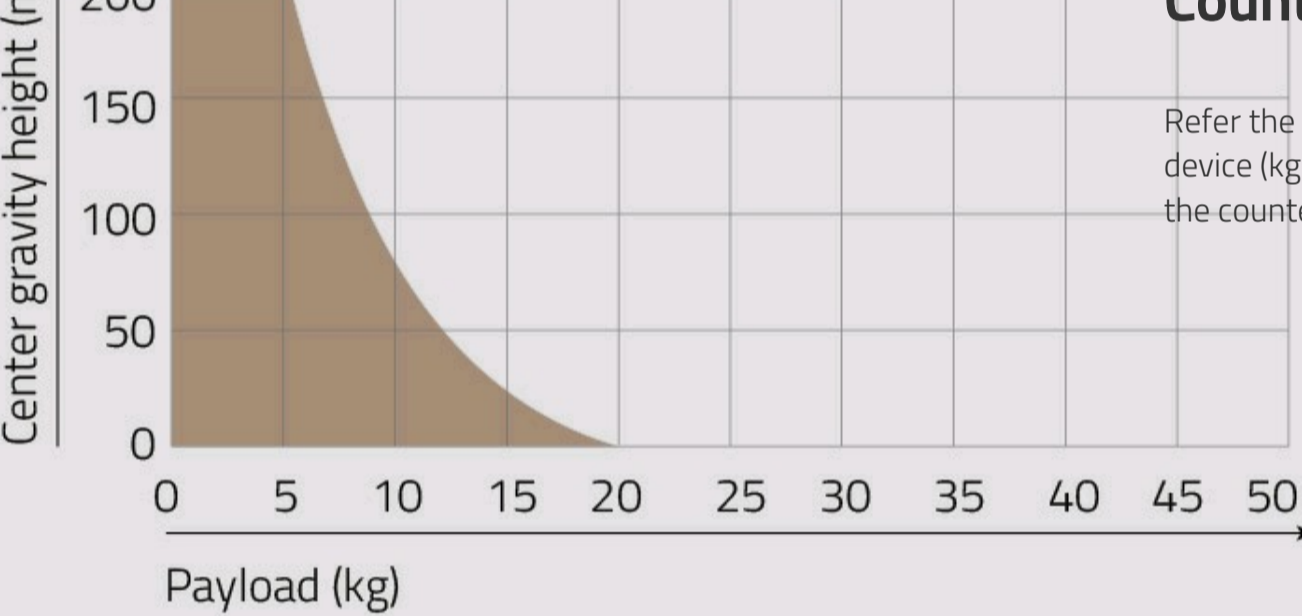

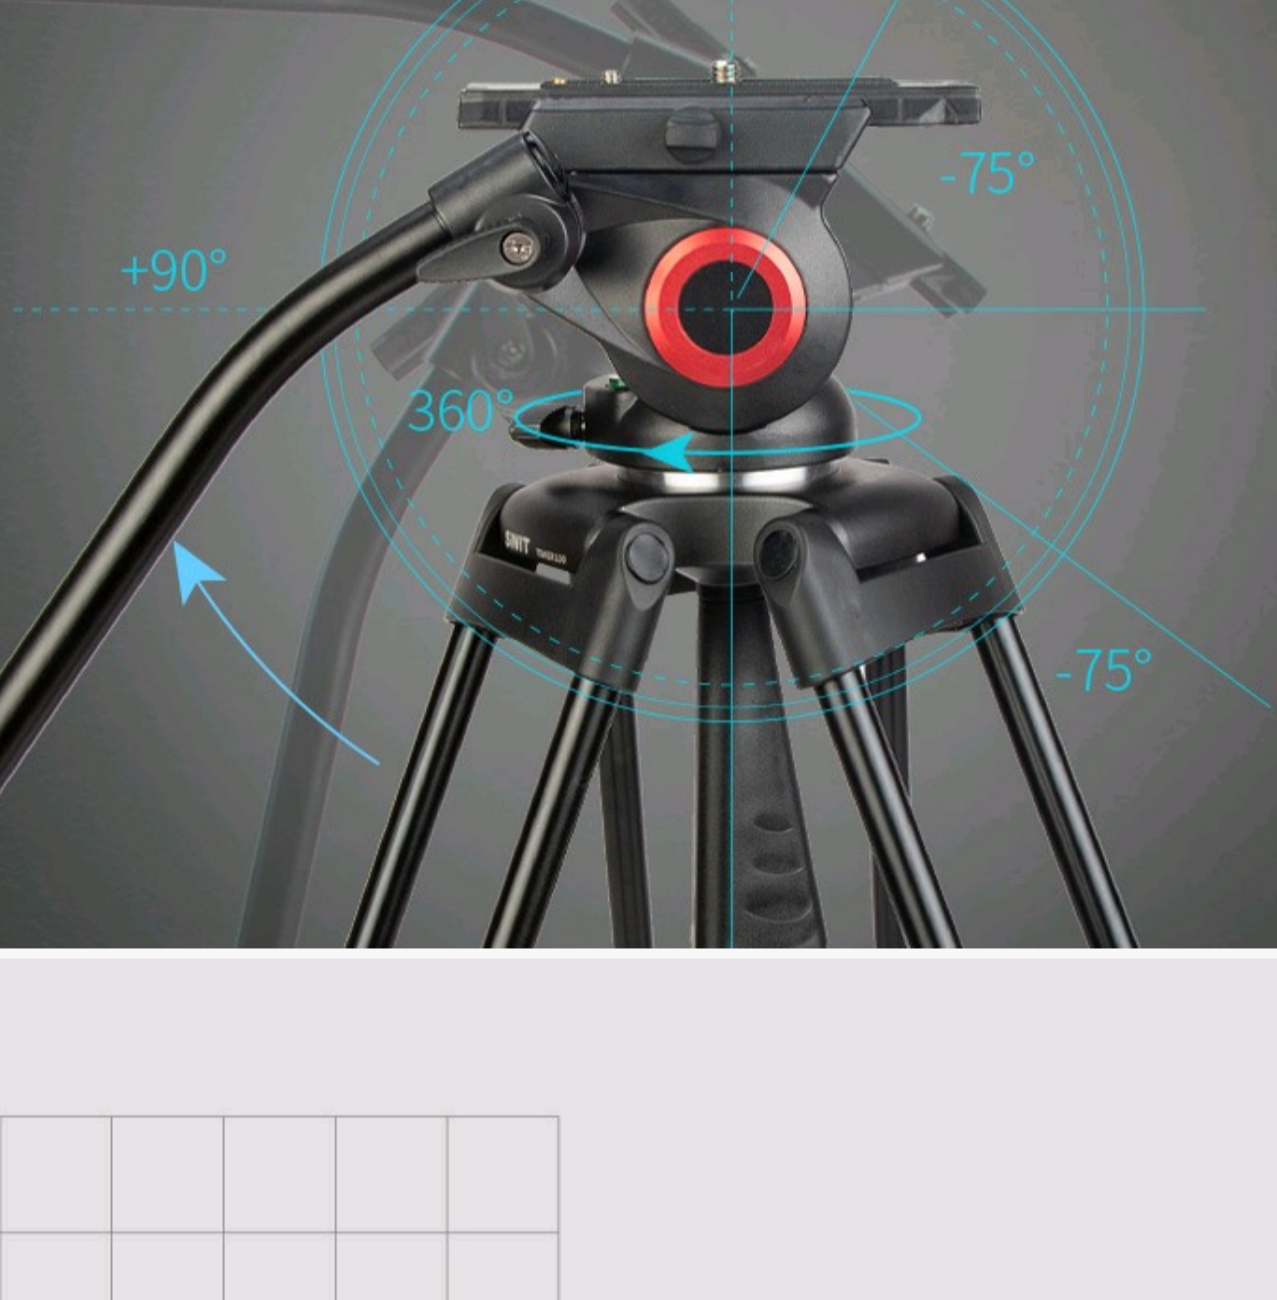

10kg Load Fluid Head

TOWER100 tripod comes with a 10kg load fluid head to allow smooth pan-tilt angle motion. The quick release plate provides 1/4" and 3/8" screw bolts, and the luminous bubble level is clearly visible even at dark environment.

Maximum Motion Angle

TOWER100 tripod head supports 360° pan motion and -75° to +90° tilt motion, for variety picture compositions.

Refer the center gravity height (mm) and weight of the device (kg) on the tripod head to the chart, to check if the counter balance works with this device.

Side Release Plate

The quick release plate is installed and released from the side, and securely fixed by tapered edges on the base plate.

65mm Thicker Bowl

The TOWER100 tripod has 65mm thicker bowl to fit the head firmly.

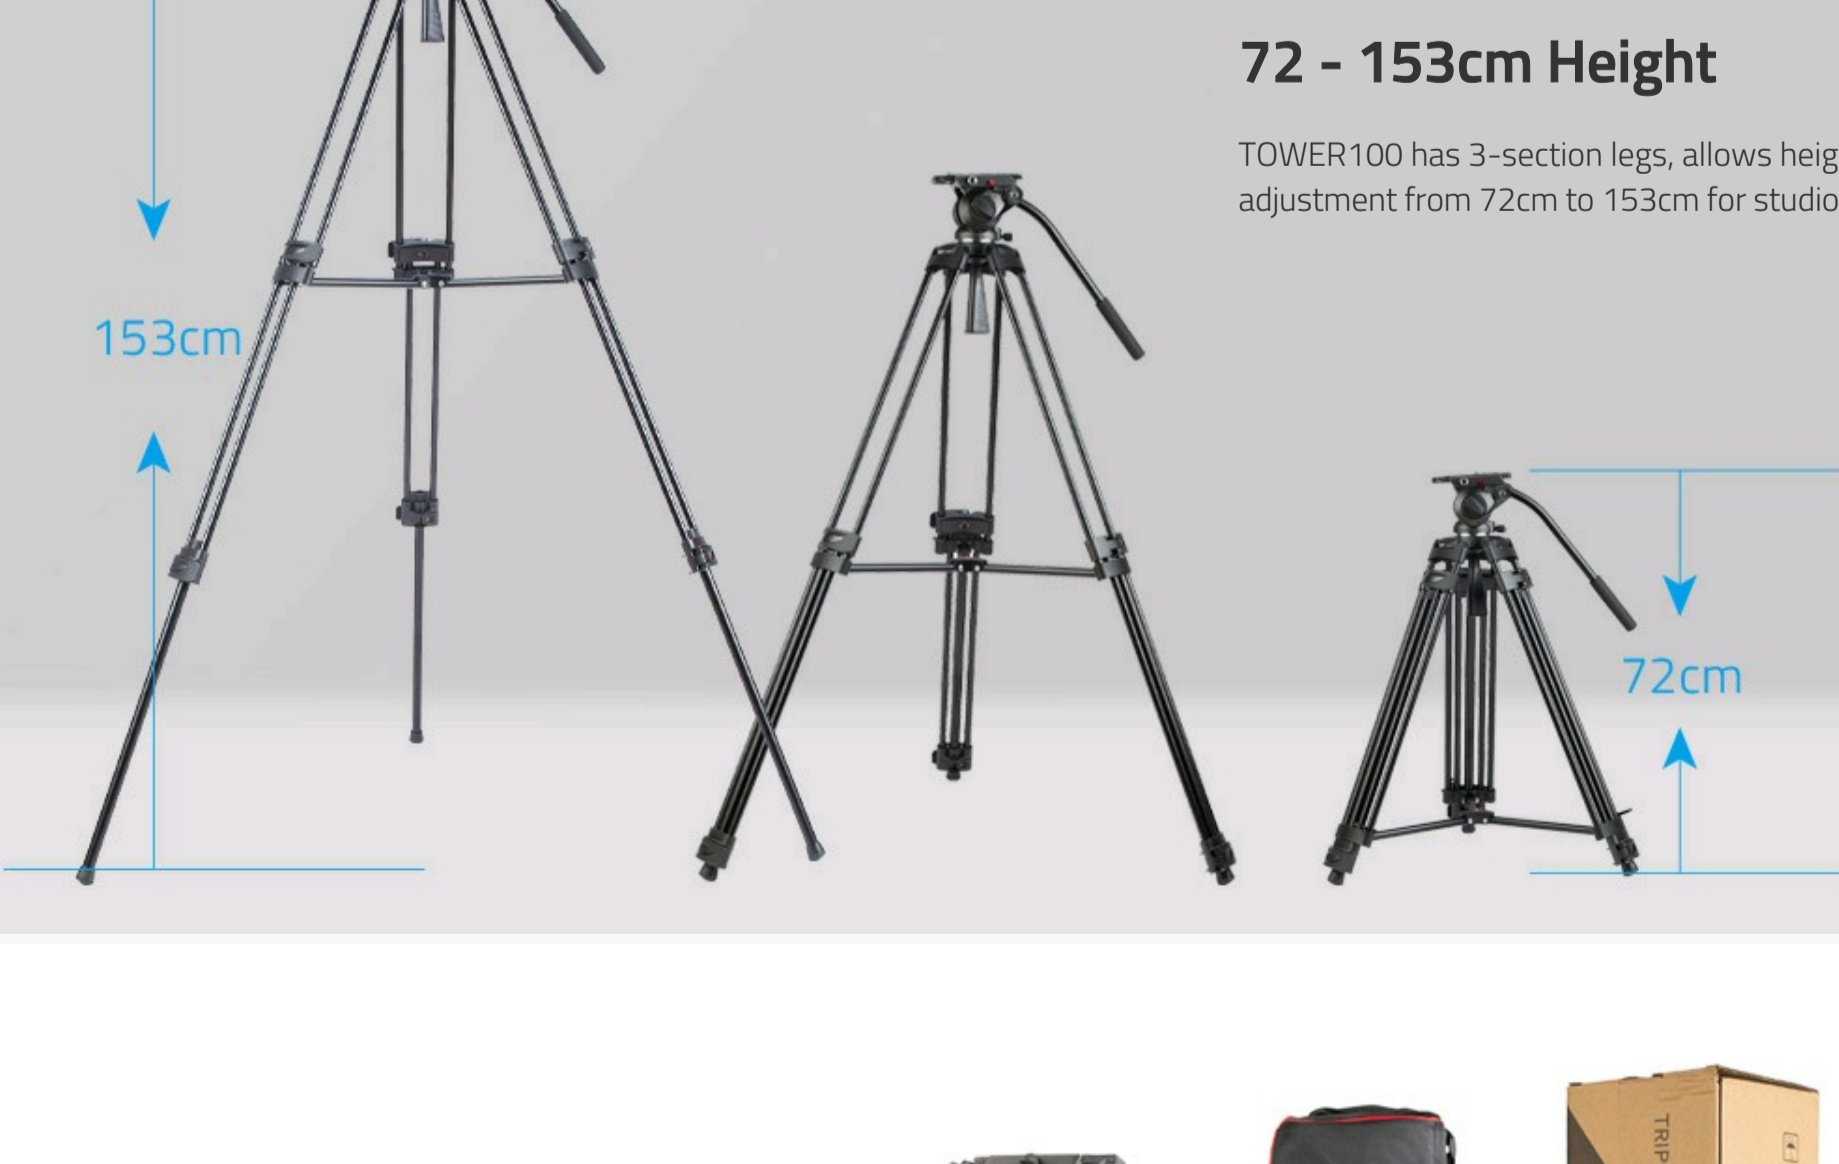

Mid Spreader

TOWER100 provides an aluminum alloy mid spreader to strengthen the stability.

72 - 153cm Height

TOWER100 has 3-section legs, allows height adjustment from 72cm to 153cm for studio setup.

Package

TOWER100 package provides the tripod with head, a carrying bag, and packed in a compact size carton box.
