Studio Camera Tripod

TOWER150 is a studio application light weight camera tripod with smooth fluid head of 15kg load. The thicker aluminium tubes make stronger and stable legs like a tower, and still in light weight.

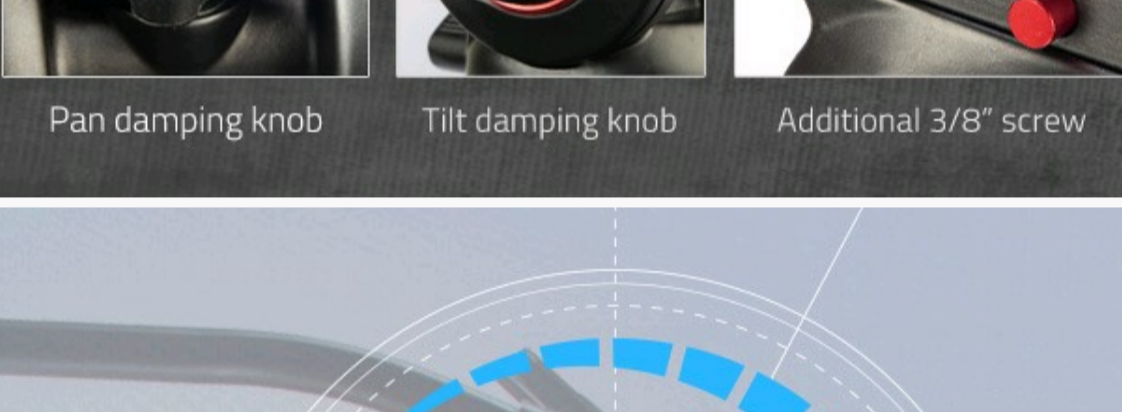

One Buckle Lifting

TOWER150 tripod leg has 3 sections, and with a connection rod, you can release and lock the sections together by only one buckle, for quicker height adjustment.

15kg Fluid Head with Damping Adjustment

TOWER150 tripod comes with a 15kg load fluid head with pan damping and tilt damping adjustment. The quick release plate provides 1/4" and 3/8" screw bolts, and the luminous bubble level is clearly visible even at dark environment.

Pan damping knob Tilt damping knob Additional 3/8" screw

Maximum Motion Angle

TOWER150 tripod head supports 360° pan motion and -75° to +90° tilt motion, for variety picture compositions.

Side Release Plate

The quick release plate is installed and released from the side, and securely fixed by tapered edges on the base plate.

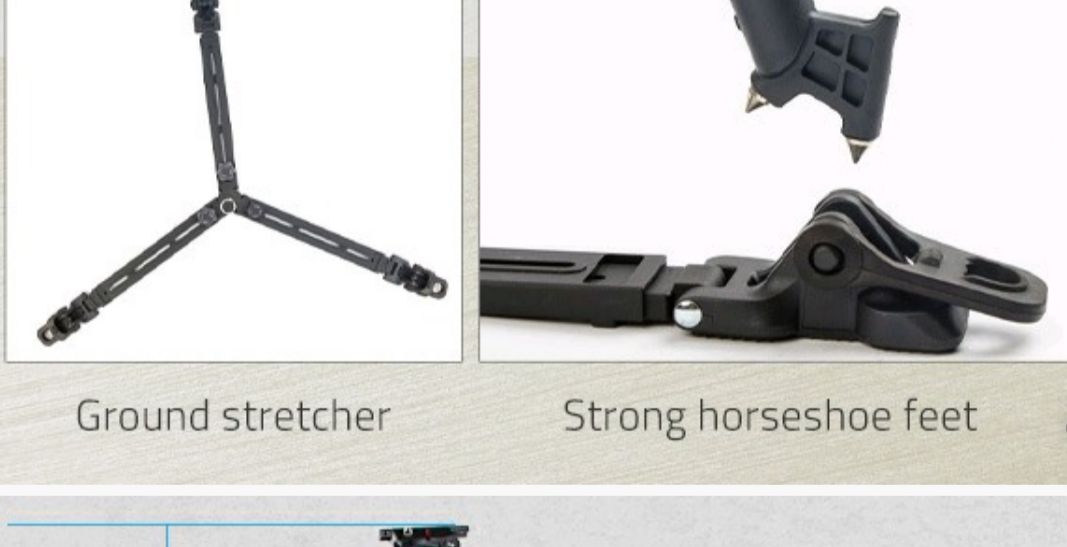

75mm Thicker Bowl

The TOWER150 tripod has 75mm thicker bowl to fit the head firmly.

Ground stretcher

TOWER150 provides a ground stretcher to strengthen the stability, and the horseshoe feet will fit for a wheel base as well.

Ground stretcher Strong horseshoe feet

50 - 170cm Height

TOWER150 has 3-section legs, allows height adjustment from 50cm to 170cm for studio setup.

Package

TOWER150 package provides the tripod with head, a carrying bag, and packed in a compact size carton box.
