

Most Flexible and Modular 4K Multiviewer to fit any installation

Introducing 4KCRAFT, the ultimate solution for creating custom, high-performance setups tailored to your specific needs. With the ability to handle up to 16 inputs, including 12G/3G/HD/SD SDI or HDMI, and up to 4 outputs (3G/HD/SD SDI) or a single 4K HDMI output, this cutting-edge technology allows you to display all your inputs simultaneously on-screen in any size and position you desire.

Experience unrivaled convenience with up to 6 layouts that can be conveniently stored in the 4KCRAFT system, readily accessible through direct keys on the front keypad or our intuitive web-based Control Software. Take full control of your 4KCRAFT units remotely, effortlessly managing them with a tablet, phone, or PC.

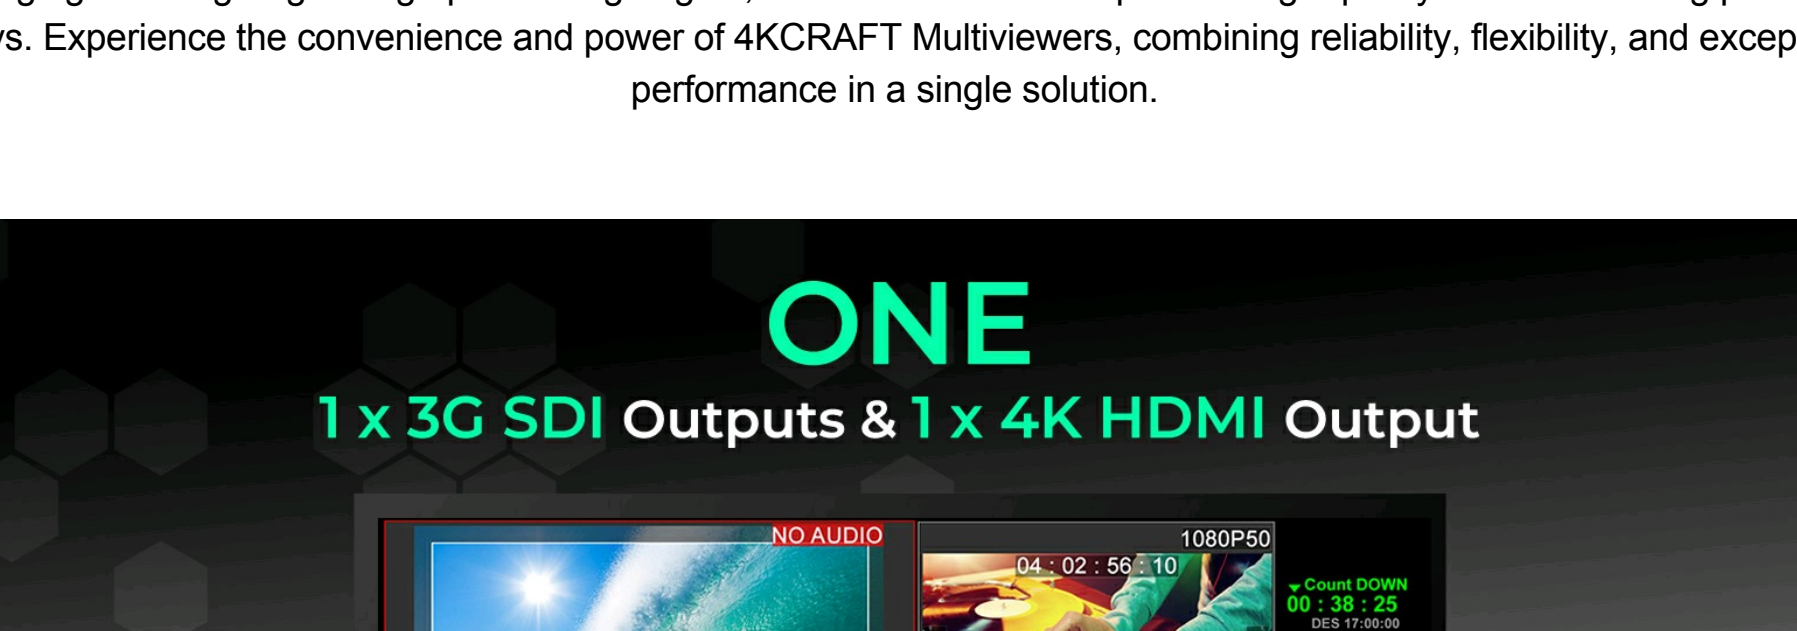

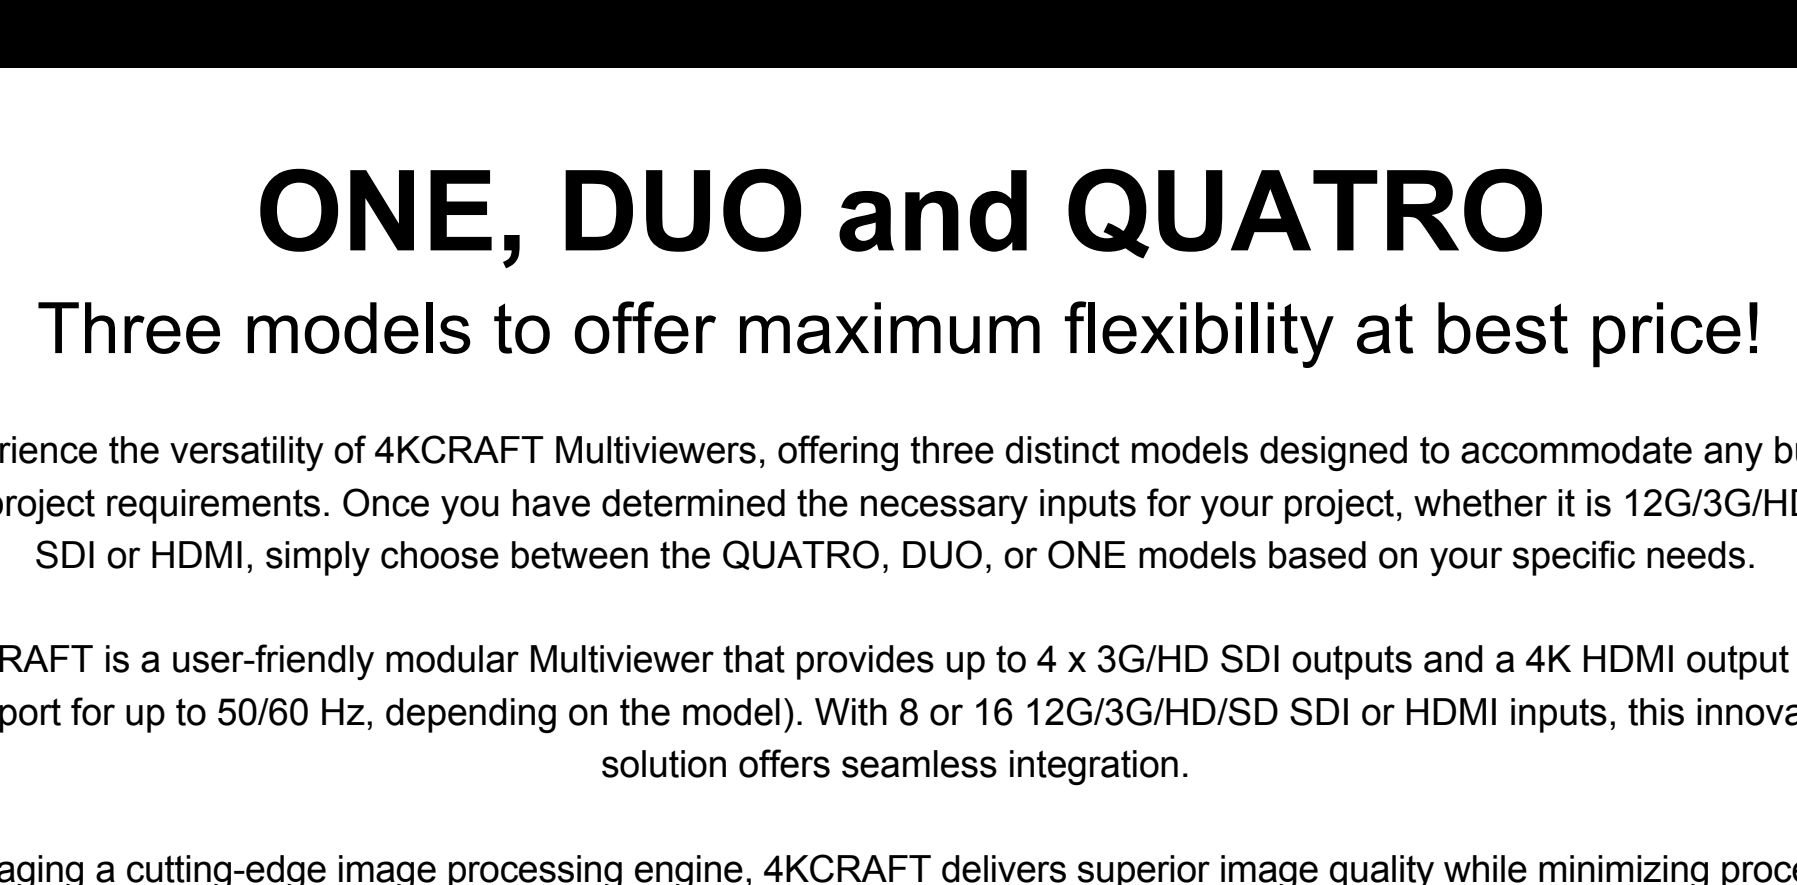

4KCRAFT not only delivers exceptional flexibility with up to 16 sources but also offers the unique capability to expand your installation by cascading up to 64 sources. Featuring our groundbreaking No Delay Cascade Engine.

Elevate your control room or production setup to unprecedented levels of performance and versatility with 4KCRAFT. Experience seamless integration, exceptional quality, and unparalleled convenience in a single, comprehensive solution. With compact and Lightweight 1 RU Aluminium design, 4KCRAFT is an energy-efficient Multiviewer that grant low temperature while working.

Full Featured Multiviewer

- 4K Modular Multiviewer system
 - Hardware based (NO Pc, NO hard-drive)
 - Easy to use scalable modular multiviewer system
 - 8 or 16 (12G/3G/HD/SD-SDI) or HDMI inputs in 1RU
 - up to 4 x 3G/HD SDI and 1 HDMI 4K output
 - High quality image processing engine with low processing delay
 - Quick control: Easy to use keyboard with user configurable direct keys and encoder
 - Aspect Ratio Selection (4:3, 16:9)
 - ATC & D-VITC Time code (SDI)
 - Markers and safety areas
 - No audio, Silence, No input and Black image on screen alarms
 - 16 Channel Audio Level Meters (embedded audio) (3G/HD/SD-SDI)
- Selectable format of Audio level meters (Vertical or Horizontal)
 - NTP and Local Clocks and Timers
 - 16 characters UMD and video format information per input
 - Tally and UMD, TSL 3.1 and 5.0 compatible
 - Selectable Background, border, text color
 - Free user friendly web-based drag and drop control software and firmware update by USB
 - SNMP Compatible system
 - Redundant power supply
 - Space-saving, fanless, energy-efficient and lightweight aluminium design

Mix and Monitor 12G/3G/HD SDI and HDMI sources in any size and position in a 4K Monitor or TV!

Any combination of SDI and HDMI signals in any format and frame rate

4KCRAFT is the ideal choice for monitoring massive control rooms, multi-camera productions, and installations with an abundance of sources, all while ensuring the highest quality. Whether you are working with camera feeds, matrices, PCs, or other signals, 4KCRAFT effortlessly supports any combination of SDI and HDMI signals in any format and frame rate, thanks to its state-of-the-art scaling and re-synchronization engine.

ONE, DUO and QUATRO

Three models to offer maximum flexibility at best price!

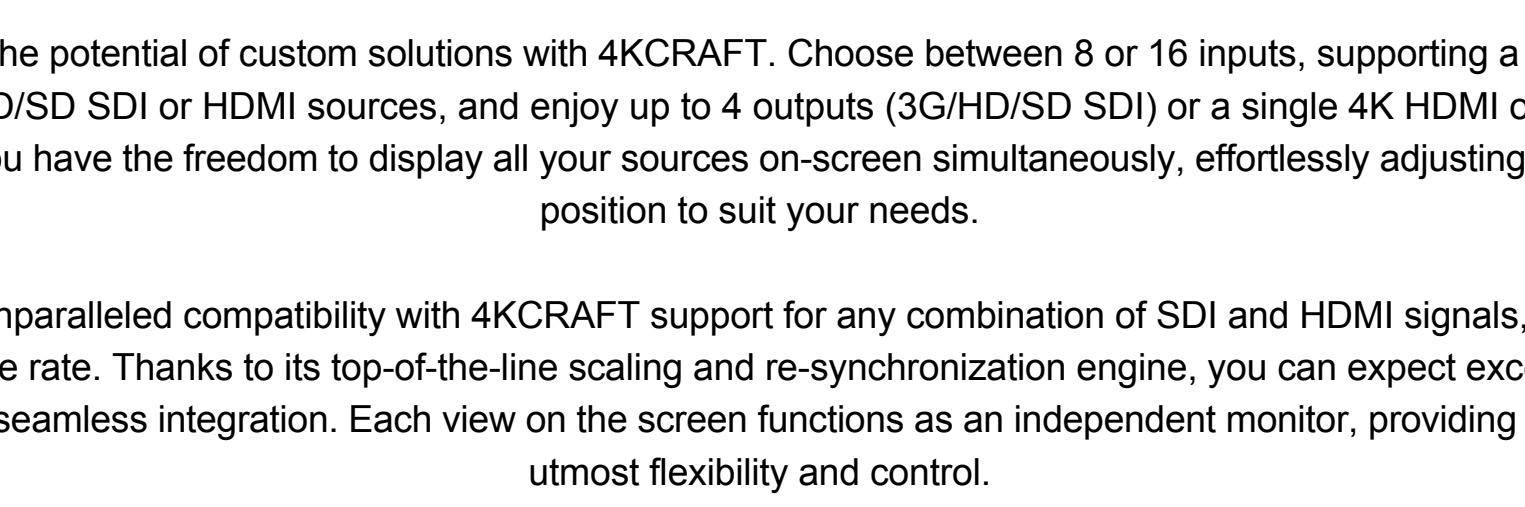

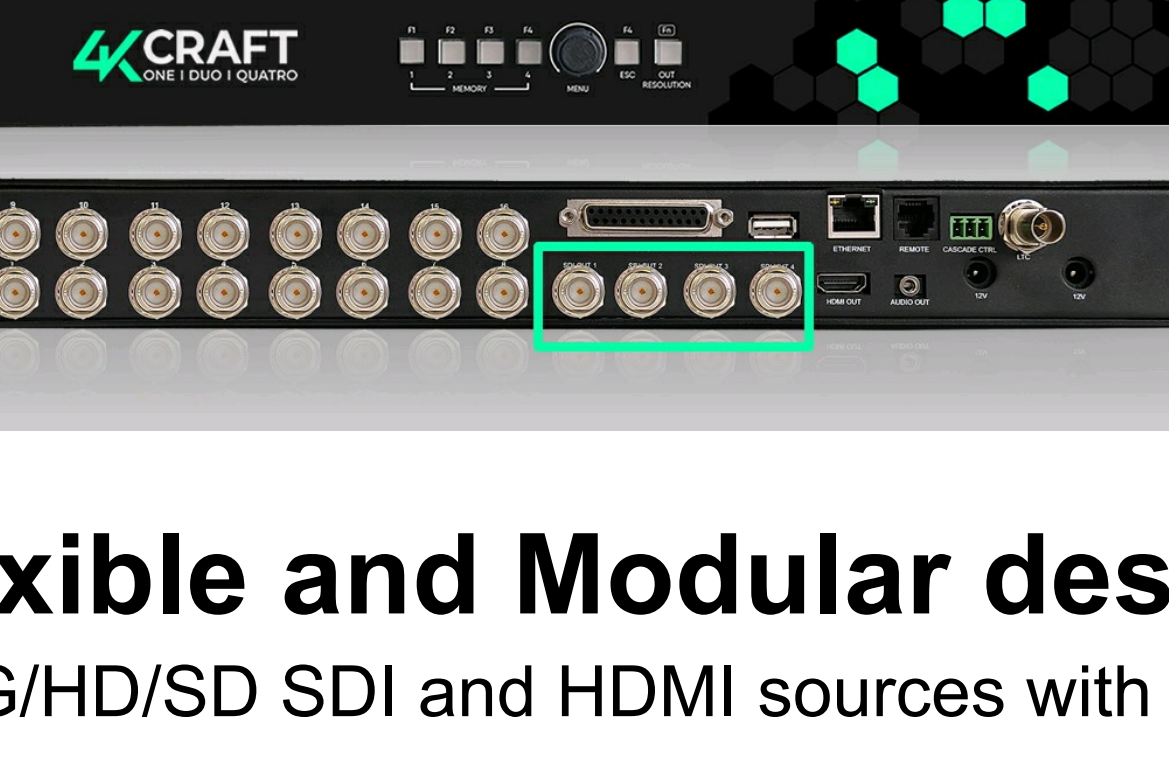

Experience the versatility of 4KCRAFT Multiviewers, offering three distinct models designed to accommodate any budget and project requirements. Once you have determined the necessary inputs for your project, whether it is 12G/3G/HD/SD-SDI or HDMI, simply choose between the QUATRO, DUO, or ONE models based on your specific needs.

4KCRAFT is a user-friendly modular Multiviewer that provides up to 4 x 3G/HD SDI outputs and a 4K HDMI output (with support for up to 50/60 Hz, depending on the model). With 8 or 16 12G/3G/HD/SD SDI or HDMI inputs, this innovative solution offers seamless integration.

Leveraging a cutting-edge image processing engine, 4KCRAFT delivers superior image quality while minimizing processing delays. Experience the convenience and power of 4KCRAFT Multiviewers, combining reliability, flexibility, and exceptional performance in a single solution.

ONE

1 x 3G SDI Outputs & 1 x 4K HDMI Output

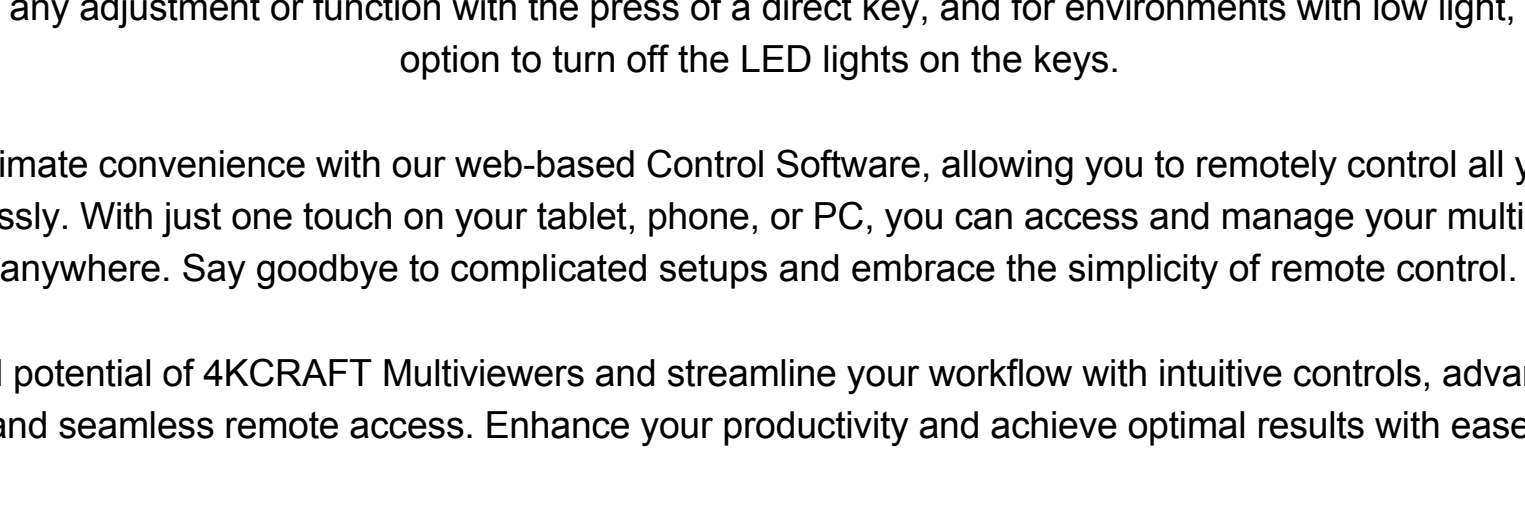

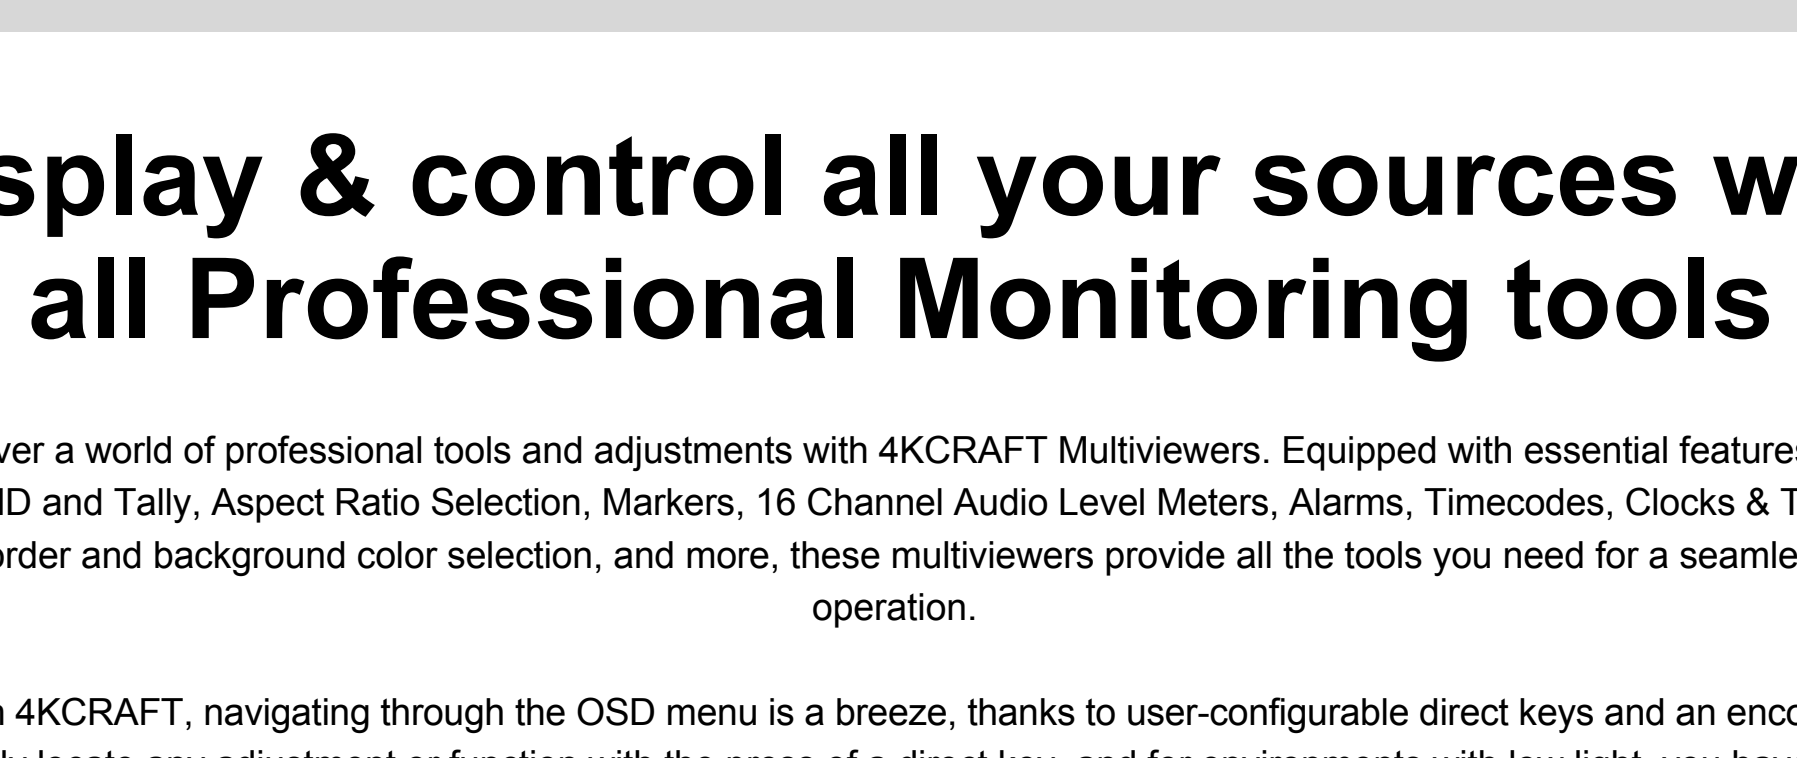

DUO

2 x 3G SDI Outputs & 1 x 4K HDMI Output

QUATRO

4 x 3G SDI Outputs & 1 x 4K HDMI Output

Flexible and Modular design

Mix 12G/3G/HD/SD SDI and HDMI sources with best quality

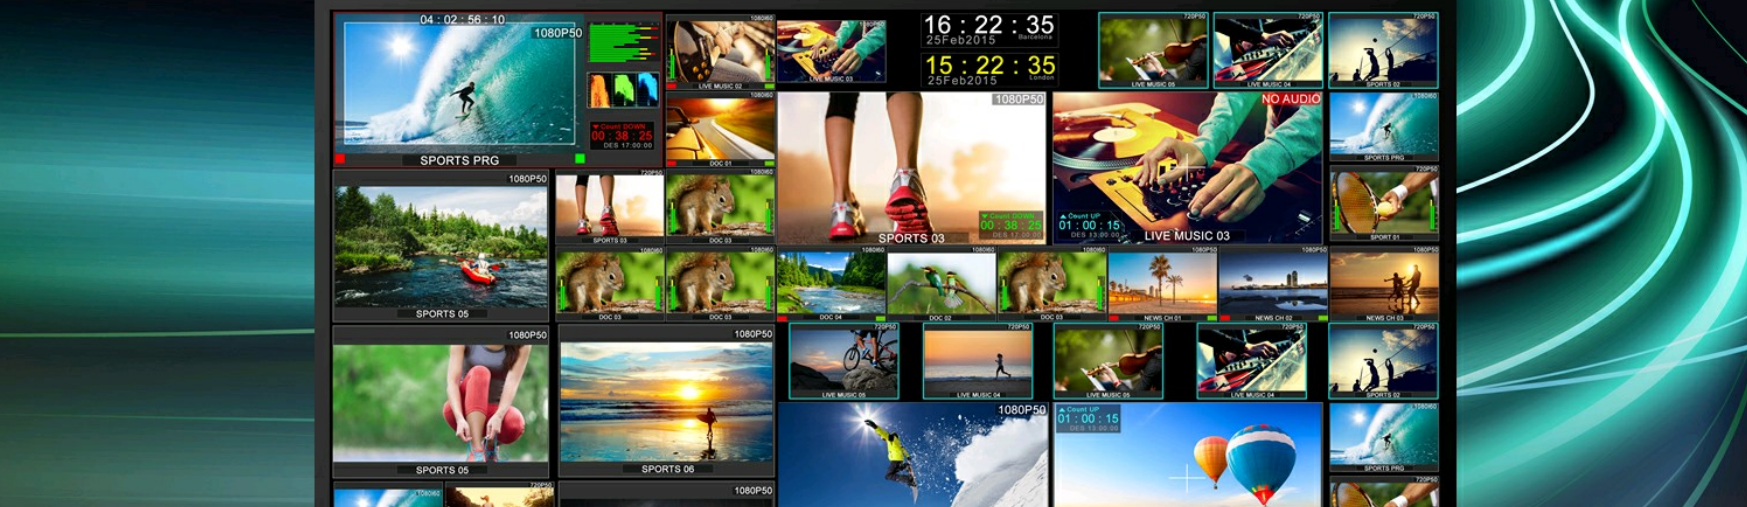

Unlock the potential of custom solutions with 4KCRAFT. Choose between 8 or 16 inputs, supporting a range of 12G/3G/HD/SD SDI or HDMI sources, and enjoy up to 4 outputs (3G/HD/SD SDI) or a single 4K HDMI output. With 4KCRAFT, you have the freedom to display all your sources on-screen simultaneously, effortlessly adjusting their size and position to suit your needs.

Experience unparalleled compatibility with 4KCRAFT supporting for any combination of SDI and HDMI signals, regardless of format or frame rate. Thanks to its top-of-the-line scaling and re-synchronization engine, you can expect exceptional image quality and seamless integration. Each view on the screen functions as an independent monitor, providing you with the utmost flexibility and control.

Embrace the power of 4KCRAFT and elevate your visual experience. With its customizable solutions, comprehensive signal support, and independent views, it is the ultimate choice for enhancing productivity and delivering superior results. Discover a new level of precision and efficiency with 4KCRAFT.

12G SDI

16 or 8 x 12G/6G/3G SDI Inputs

3G SDI

16 or 8 x 3G SDI Inputs

HDMI

16 or 8 x HDMI Inputs

MIXED

8 x 12G or 3G & 8 x HDMI Inputs

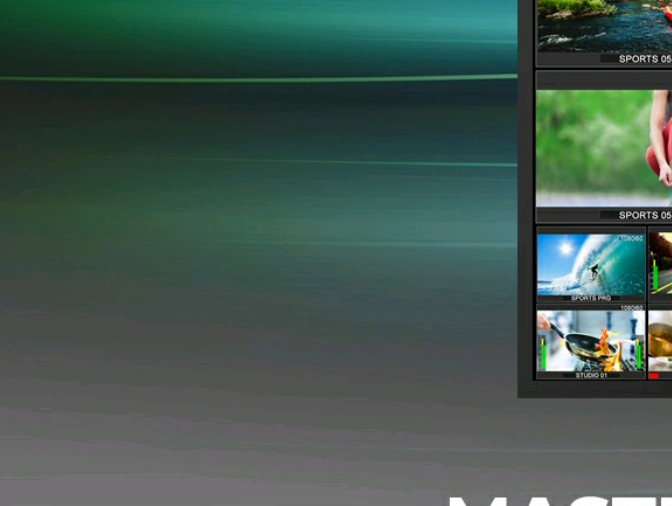

Display & control all your sources with all Professional Monitoring tools

Discover a world of professional tools and adjustments with 4KCRAFT Multiviewers. Equipped with essential features such as UMD and Tally, Aspect Ratio Selection, Markers, 16 Channel Audio Level Meters, Alarms, Timecodes, Clocks & Timers, border and background color selection, and more, these multiviewers provide all the tools you need for a seamless operation.

With 4KCRAFT, navigating through the OSD menu is a breeze, thanks to user-configurable direct keys and an encoder. Easily locate any adjustment or function with the press of a direct key, and for environments with low light, you have the option to turn off the LED lights on the keys.

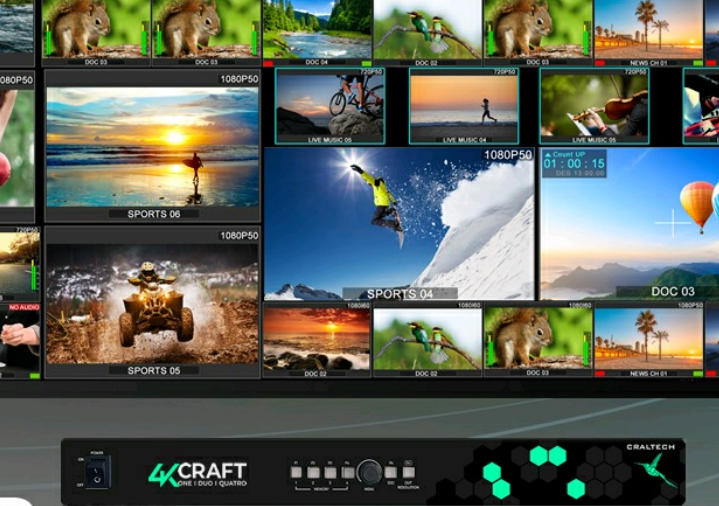

Experience ultimate convenience with our web-based Control Software, allowing you to remotely control all your 4KCRAFT units effortlessly. With just one touch on your tablet, phone, or PC, you can access and manage your multiviewers from anywhere. Say goodbye to complicated setups and embrace the simplicity of remote control.

Unlock the full potential of 4KCRAFT Multiviewers and streamline your workflow with intuitive controls, advanced features, and seamless remote access. Enhance your productivity and achieve optimal results with ease.

Markers

Wide range of markers and security areas are available with a line color and curtain transparency selection. A User Marker is available if any of standard markers fits your requirements.

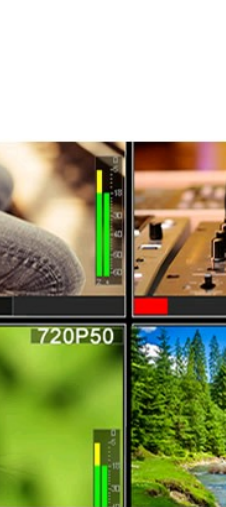

Alarms

On screen video and audio alarms with selectable color and time selection. No Input, Black Image, No Audio, Silence.

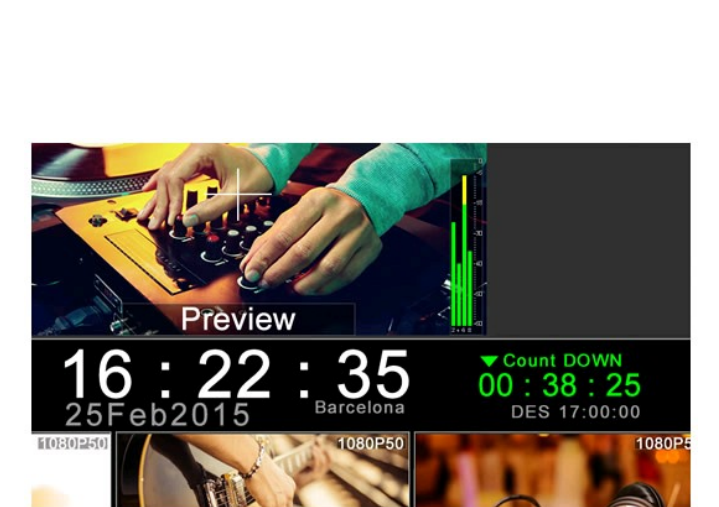

Timecode and Source Format Information

On screen ATC Timecode information and Video Format Information

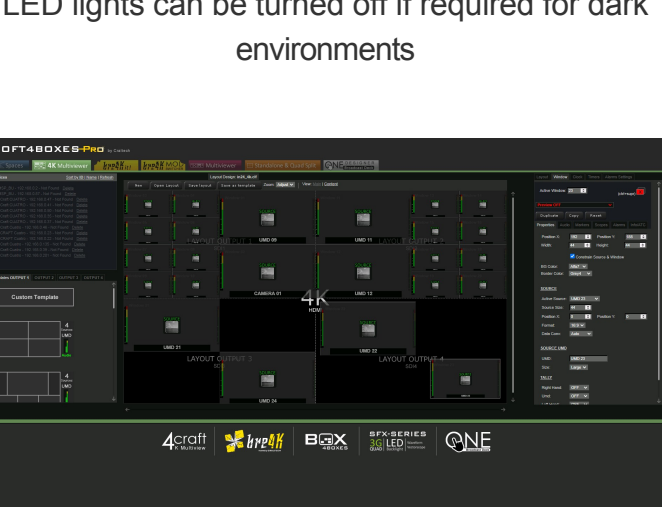

16 Channel Audio Level Meter

Display up to 16 Channel Audio Level Meter with a wide range of options (All together, Separate in pairs-odds... Selectable Yellow and Red color level and two different sizes).

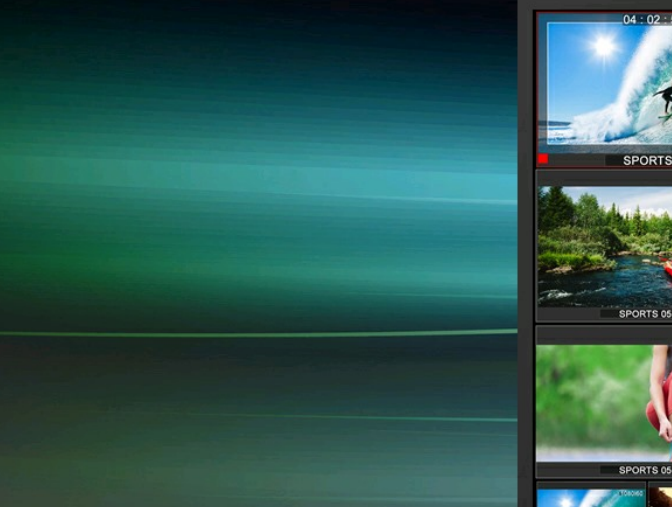

Tally and UMD

Red, Green and Yellow Tally, 3.1 and TSL 5.0. Three Tally modes available: Square, Border and UMD (all can be activated together)

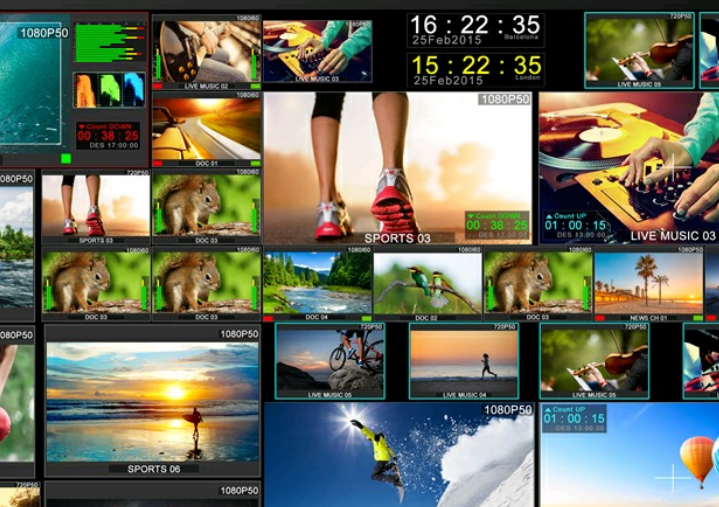

Encoder & Dual Functionality Direct Keys

Encoder to easy navigate through the OSD menu, and direct keys with dual functionality (fixed/configurable). Activate [Fn] and access to your favorite adjustments just with a press. Keys LED lights can be turned off if required for dark environments

Border & Text color selection

Selectable Border and Text color. Available colors: black, white, red, green, blue, cyan, magenta, yellow and 7 grey levels.

Clocks & timers

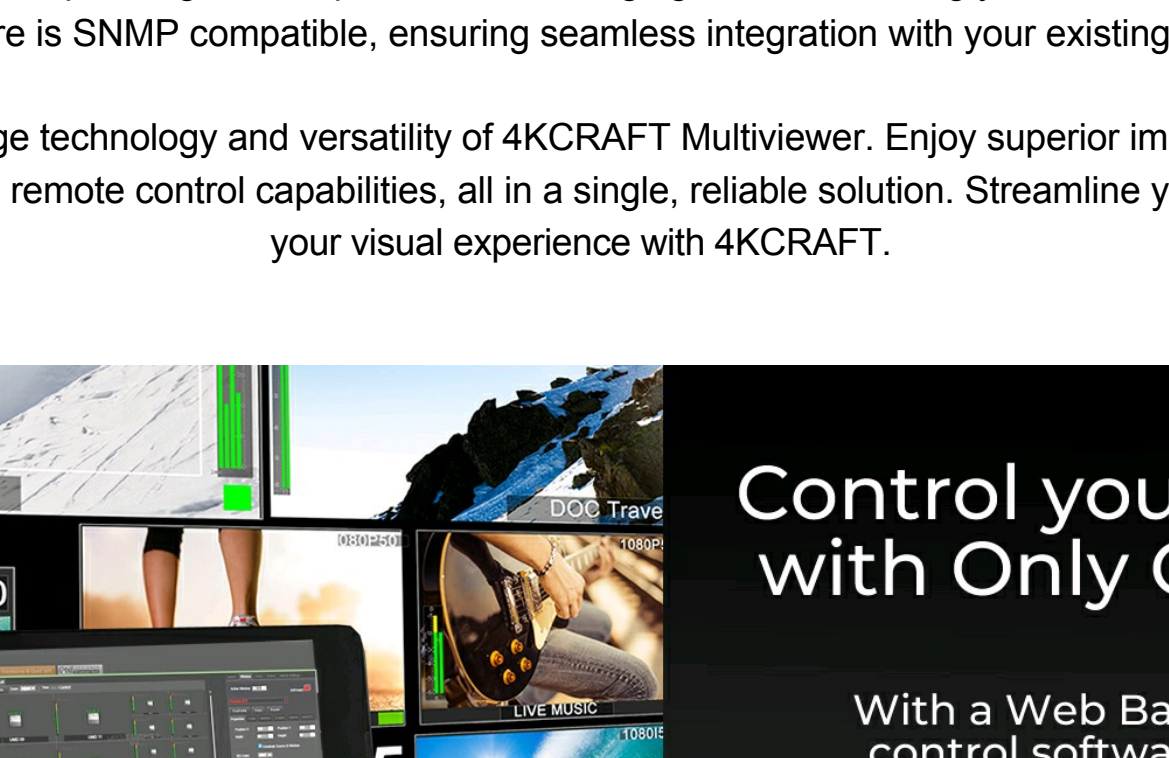

Display up to 2 clocks and 6 timers in your Layout. NTP and internal clocks and UP and Down Counters.

Soft4Boxes Pro Control Software

Soft4Boxes Pro is a user-friendly Web-Based control software to control our Multiviewers, Monitors and Video Processors. Control all your 4KCRAFT units remotely only with one touch using a tablet, phone or PC! *Click here for more information!

Up to 64 SDI or HDMI sources using the unique No Delay Cascade Capability

Unique in the market No Delay Cascade Capability

Experience the power of 4KCRAFT, a hardware-based Multiviewer that boasts a superior image processing engine with minimal processing delay. What sets 4KCRAFT apart is the integration of our exclusive B2B-Link Communication System, enabling seamless cascading of equipment without introducing any additional delay. This innovative feature allows you to expand your system and display an increased number of sources without compromising performance.

Take control of your Multiviewer remotely with ease, thanks to the Ethernet connector and our intuitive web-based Remote Control Software. With a simple drag and drop interface, managing and customizing your Multiviewer becomes effortless. Additionally, the software is SNMP compatible, ensuring seamless integration with your existing network infrastructure.

Embrace the cutting-edge technology and versatility of 4KCRAFT Multiviewer. Enjoy superior image processing, minimal delay, expandability, and remote control capabilities, all in a single, reliable solution. Streamline your workflow and elevate your visual experience with 4KCRAFT.
